

New neighbors
move into your neighborhood.

You introduce yourself to the
children who live in the house and
find out that they are lonely and
miss the friends they had in their old
neighborhood. You invite them to
play with you and your friends. You
also tell him about coming to church
and invite their family to join your
family. You can tell them that even
when we feel lonely, we can find

JOY in what God has given us
and does for us
every day!

Your family had planned to go swimming today but it started to storm. Everyone is grumpy and sad that the plans to swim were cancelled. You invite your family to do something fun for the afternoon such as a talent show.

You are filled with **JOY** as you celebrate the gifts God has given you.

For your birthday
two of your friends get you the
same toy – your favorite toy that
you've been wanting for a long time.

You decide to give one of the
toys to another friend instead of
keeping them both for yourself.

You are filled with **JOY** as you
celebrate blessing another person
with a gift that was given to you!
