### **Situation #1**

For Chad's birthday, he got a big chocolate birthday cake. There were a few pieces left the next day. His brother Kevin asked him for a piece of cake. Chad wanted all of the cake for himself, so he said no. Kevin told his parents, and they asked Chad why he would not let Kevin have a piece of cake. Chad knew he was being selfish and felt guilty because of it, but he told his parents that he should be able to have the rest of the cake for himself because it was his birthday cake.
