

Love Scenarios

Read the different scenarios out loud. Have the children jump in the hula-hoop if the scenario is showing God's love or out of the hula-hoop if the scenario is not.
(If the group is large, assign a child or two to jump in or out at a time.)

1. You're in your class in Grace Church Kids and you and a group of friends are playing with the building blocks. A new kid comes in and your friend invites her over to play with your group.
2. Your mom doesn't feel well one morning, but is trying to get everyone dressed and ready to go run errands. She asks you to get your shoes and socks on. Instead of doing that, you go to your room and dump Legos all over the floor, looking for a certain piece.
3. You find out that a classmate at school doesn't have his lunch money. You have ten dollars that your grandparents sent for your birthday. You give your classmate some money for his lunch.
4. You have some friends over to play in the snow. Your friend who lives down the street says she's cold and is going home to get a scarf. You offer to let her wear yours instead so she doesn't have to walk all the way home. You can always just go inside and get another, if you need it!
5. You were really looking forward to having hamburgers for dinner, but your dad accidentally left them on the grill too long and they burned. You tell your dad it's okay and help make a salad to go with all the sides you were going to have.
6. Your mom had a busy day at work and came home to make your favorite meal, but realized she forgot to stop at the store and get one important ingredient. You get angry and yell at her and refuse to eat anything else for dinner.
7. You have a new teacher in your Grace Church Kids class. She's not sure where the Play-Doh is kept. A kid in your class plays a trick on her and tells her it's in the cabinet, when it's really in the drawer. You laugh when she can't find what she's looking for.
8. You are at a neighbor's house playing and his sister is in another room playing alone. You continue to play with your friend instead of inviting her in to play with the two of you.
9. Your friend falls off a swing at the playground and hurts his knee. You go inside to get him a Band-Aid.
10. You push your brother down.
