

Leaders: The goal this week will be primarily diagnostic - we'll focus on application driven questions the next few weeks around obscurity, work, and community and what it actually looks like to live a small life but for tonight, try to help everyone see where they are trying to be a big deal.

Small Group Questions - Week 1

1. *What are some things you really care about accomplishing (might not be traditional answers - everyone has something)? What happens if you don't accomplish those things?*
2. *Are you over-involved (trying to chase accomplishments) or under-involved (not being appropriately responsible for things God has made you responsible for)?*
3. *Does disparity make you uncomfortable? Are you discontent with your lot in life (the strengths and weaknesses God has given you)?*
