

## The Church | Week 2

### Introduction

In week two of our series we are talking about our perspective towards the church and our attitude towards our experience. Sometimes our expectations and preferences become the determining factor towards our engagement and commitment with church. In this talk we're focusing on the truth that the church is not about me, it's about Jesus!

### Questions

- What are some ways in which we might subconsciously be making "24Seven" about ourselves?
- What does it look like to lay down our preferences, but still be engaged in 24Seven?
- What do you think could be some potential benefits for you in coming to 24Seven with a mindset and attitude that says "This is about Jesus, not about me"? How would this change how you experience hanging out, games, teaching, and small groups?
- Which one do you need to do next: serve in Kids Ministry or become more inclusive at 24Seven?

- How can you be generous with the money that you have so that others can be cared for by the church? Is that idea hard for you?
